President's Letter

Hi Members,

It's been a year since I took office. We have seen success and we have seen trials. Albert Pike wrote, "That which causes us trials shall yield us triumph: and that which make our hearts ache shall fill us with gladness. The only true happiness is to learn, to advance, and to improve: which could not happen unless we had commenced with error, ignorance, and imperfection. We must pass through the darkness to reach the light." So hopefully the trials we have worked through as an association will bring us success on the other side. And we will be stronger for them.

I want to thank our past officers, board members, and committee heads for their work and dedication to the IFA. I would also like to welcome Bill Bailey as our new V.P., Cody Bogard as our Secretary, and David Bruce as one of our new Board of Directors. I look forward to working with all of you, along with the current officers and BOD's in the coming year.

It was good to see those of you who made it to the annual meeting. Ann did a wonderful job putting the dinner together, as usual. Thank you Ann.

Remember that the IFA will not be at the Hoosier Horse Fair this year. We will be holding our contest at the Tipton Co. Fair Grounds. I hope you will be able to come out and support the IFA. Be careful in the snow, spring is on its way.

**God Bless
Tim Tritch, CJF**

Editor's Note

As our past IFA Vice- President leaves office I'd like to say a few words on her behalf. Sharon Wirey started to submit a contribution sharing her memories of this association. Perhaps I can help her finish it. Sharon acknowledges her many IFA mentors who helped further her career and the friendships she forged over her 20 years of very active involvement. Her participation in the IFA includes (but is not limited to): serving on the BOD, Vice-President, Secretary, and chairperson of the picnic, hammer-ins, banquet, newsletter, directory, membership and sponsorship committees. This list does not include the 'behind the scenes' efforts she's put in over the years.

Sharon has coordinated food for numerous HHF contests (which entailed mass quantity, multiple cart grocery trips) then transported and orchestrated its preparation – a creative feat in itself considering logistics and circumstance- and figured out a way of getting it to an area all but impossible to negotiate. She's also been in charge of moving auction items through the same maze of humanity, dodging six-horse draft hitches and calming HHF security officials denying her access.

Sharon is the one who stays after a function is over, cleaning up and helping with tear-down. Often her husband Joe is beside her, demonstrating true teamwork in action. Practical, efficient and well organized, Sharon is a 'get er done' kind of person. We've worked together as farriers. She wears me out puts me to shame with her speed, motivation and drive. In a social setting Sharon is the only person I know who can be sitting in a lawn chair (I think about 8 minutes is what she allows herself) and exhaust you just by watching her plan, then accomplish, her next task.

Caring, kind, giving – these true words fall short describing my buddy. I've witnessed pro-bono work Sharon has done for other farriers suffering on hard times. She's hired and helped several young farriers who go on to establish successful careers. I've known countless instances where Sharon and Joe have been there for a friend in need, helping out in every way possible. They do so quietly with no expectation of recognition.

An incredible volunteer, Sharon credits the IFA with teaching her organizational skills and efficiency. I don't think a lot of that is taught; it comes from within her. We could learn much through her example of giving back.

I hope you can take a break and learn how to relax, lady-o. Enjoy your husband, your horses, your camping trips, your life.

Your Friend,
Julie

I appreciate people who are civil, whether they mean it or not. I think: be civil. Do not cherish your opinion over my feelings. There's a vanity to candor that isn't really worth it. Be kind.

Announcements~ continued p. 22

Sharon started out 2010 just as a mentor and a boss that I was eager to please. She has gone from a boss and/or mentor to a person that I consider an amazing friend, in the duration of the last year.

I would also like to thank several other people that have helped me and let me have the wonderful privilege of working for them in the last year. I feel that the diversification of being under so many skilled and knowledgeable farriers that are in different fields and specialize in different areas is what will develop me as a farrier as well as a citizen. Along with Sharon Wirey, I have been able to work with Jim Keith, Julie Young, Larry Jones, Heather Holly, and Larry Sims. I would like to thank all of them, as they have all helped me in so many unimaginable ways.

There were other farriers that showed some interest in getting younger farriers involved but simply didn't follow through when the time became present. I would like to encourage all farriers to help new farriers get rolling as this has helped me an incredible amount. Hopefully one day I will be able to give back to the younger/newer generation as I was helped.

The Beginning of The Road....

After completing my first year in the farrier business, I couldn't be more excited about life and the career that I have chosen. It is wonderful to be able to wake up in the morning and be able to look forward to the day ahead. Yet being realistic, there are days that are overwhelming and days that I have certain clients that I look forward to visiting more than others. As a whole, I don't feel that I could have chosen any other career that would have given me the satisfaction that shoeing horses has. I have had the wonderful opportunity of being able to be around many reputable farriers in the last year, trying to keep my eyes and ears open to take in any knowledge available. Joining the IFA a year ago has given me the great opportunity to network and meet so many people. However, I do have to admit that walking into a room full of knowledgeable and reputable farriers for the first time was a bit intimidating. It's amazing to me that I have created so many great friends and acquaintances out of that same room of knowledgeable and reputable farriers that I was so intimidated by at first.

Two months before I attended farrier school I did some research and found one of the best, highest skilled, and most reputable farriers in my area. After meeting with her for a short time we had agreed upon some details and I would apprentice under her after I finished shoeing school. Looking back, this is probably one of the best career decisions that I have made to date. I have apprenticed with Sharon Wirey for the first year of my career and cannot express how much I have learned about shoeing horse and life itself. Once again, I would just like to thank Sharon Wirey for helping me this past year (and hopefully more to come).
